

# Industry analyst – internship before employment

**Recruiter**

SANDBAG CLIMATE CAMPAIGN

**Location**

Brussels, Belgium or Paris, France or home-based

**Salary**

€850 per month (internship), then €25-40k par annum if successful

**Posted**

15 April 2021

**Start date**

1 May 2021 or as soon as practicable

**Closing date**

30 April 2021

**Hours**

Full time (4/5 possible)

**Contract**

6 months internship, followed by permanent contract if successful

**Education level**

At least graduate degree in economics or science

The European Emissions Trading Scheme (EU ETS) covers power plants and industrial facilities within Europe manufacturing basic commodities such as steel, cement and chemical products.

Sandbag is working to improve transparency on the true cost of decarbonising industry and increasing ambition in European climate policy. In this purpose, we are developing advanced modeling tools to represent the true cost of carbon emissions abatement.

We are looking for an analyst who will take care of developing our data source network, build methodologies for cost analysis, feed the data into our proprietary tools and participate in our campaigns by analysing its findings.

This project is part of our wider involvement in EU climate policy analysis and may lead to working on connected topics as well.

**The candidate will:**

- care passionately about fighting climate change;
- be familiar with cost analysis (e.g. calculating DCFs, LCOEs);
- be highly numerate and comfortable with data analysis;
- be a confident Excel user;
- have good writing skills in English;
- have a knack for finding the right information, public or private;
- be a quick learner and a self-starter, happy working under their own initiative;
- enjoy networking and establishing new professional relationships;
- be happy working as part of a small organisation punching above its weight to achieve change.

**The ideal candidate will also have:**

- previous work experience;
- some knowledge of industrial processes and emissions;
- data visualisation skills;
- applied mathematics skills;
- some knowledge of the EU carbon market;
- academic knowledge of the formation of prices.

**Key information**

The position is based in either Brussels or Paris or home-based, starting 1 May 2021 or as soon as practicable, initially as a 6-month internship and then as permanent employment if successful.

**Application instructions**

Please apply by sending a short covering letter and CV to [contact@sandbag.be](mailto:contact@sandbag.be) by 30 April 2021. Applications will be processed as we receive them.
